## FIVE EVENTS ON RACING PROGRAM AT FAIRGROUNDS

Pacers Entered in Four Struggles and Trotters in One. Tip Top and Vanda Vincent in Match Race.

The race program for the Tri-State The race program for the Tri-State Driving club this week shows four pacing events and a trot. The free-for-all pace which has been attracting so much attention will be reduced this week to a match race between Tip Top and Vanda Vincent Luther McCallum holding out Romac Mills for a rest up.

The first race, composed of five tratters, shows three new mebers of which little is known-Ethel Snith, driven by P. B. Jones: Albirter Princess, driven by Mr. Ochler. The other two entries. Annie Lee and Drockalt are the unfortunates who were mixed up in the soili of two weeks ago, when Robinson and Dwyer sustained severe bruises.

The trotting race, the fourth on the card, will bring out Betty Boyel. Montphis Bill, Jr., and Wikki Nui. The latter has shown her ability to outled Betty Boyd and Bill. Jr. but has never had a try at Memphis Girl. Will Williamson, of Walls, Miss. who owns and trains Memphis Girl, drove her to victory last Saturday over a good field of trotters and paners. This weeks the speed committee has placed him with the best trotters in the club.

It is quite a jump from the juvenile class to the free-for-all trot, but the progress Memphis Girl is making seems to justify this action.

The second event is made up of four wigglers—Gertie B. Frank Bragg. Marie Patchen and Aleck Penn, the Goodman entry being the favorite.

Mr. 816, Gynsy Maid and Ruby Bingen will tie up in the first named. like Memphis Girl, has shown marked improvement, having stepped a mile in 2:10 in a workout last week. #### BANKHEAD ROUTE TO PASS BY NEW ALBANY

NEW ALBANY, Miss. June 18 (Spl.) Dr. J. W. Kelley, of Burning 18 -Dr. J. W. Kelley, of Birmingham, one of the managers for the Mississippi Valley division of the Bankhead highof the managers for the Mississippi Valley division of the Bankhead highway, arrived here Thursday in company with President R. L. Smallwood, and J. E. Wilbanks, member of the local board of supervisors on a tour of inspection of the highway. Dr. Kelley made a talk to the citizens here in front of the Bank of New Albany.

Dr. Kelley said that the route of the Bankhead highway, other renorts to the contrary notwithstanding, had been finally and definitely determined and that the highway passed through New Albany. He did not know why the army convoy which left Washington on June is was not routed by New Albany over the highway, as it purported to be an inspection of that route. He stated that Senatobia and other places appeared upon the proposed route of the convoy, which places did not remotely sonnect with the Bankhead highway. He spoke in very compilimentary terms of the road work ofthe on this highway through the county, and declared that would compare with any on the route, and that it would nevitably draw the traffic across country.

It was stated to be the purpose of the vaile, division to take up with the war department the matter of changing the valley division to take up with the war department the matter of changing the routing instructions of the course, so that it would pass through this city and over the highway through this

#### **EQUALIZERS STILL** RECEIVING KICKS

Complaints continued to your int the office of the county board of equal zation Friday and a great many re the office of the county board of equalisation Priday and a great many requests for personalty assessments were
likewise received. The personalty books
have not yet been turned over to the
board despite the fact that the law requires that they be given that holy
along with the realty assessment books.

Members of the board however, are
receiving protests against the personalty assessment in cases where the
citizens have received matter of an arbitrary assessment that he believes to
be too high.

Opinions of real estate dealers will
play a considerable part in the equalizations made by the sounty hourd if
the instructions given by board electbers to protestants are followed. Many
tax payers who love visited the beard
have been furnished with blank affidayits and told to have them secure to
by real estate dealers as corroborative
proof of their claims that the assessments are too high.

The assessment made in the city hy
W. T. Condon, caunty assessor, was
made with the assistance of members
of the Real Estate Pealers' associations
and their work was highly praised by
the assessor. Thus it may result that
members of that association will be
found to be going against the ludgment
of their fellow members by making affidayits as to property values for tax
payers.

### COTTON MARKETS

Considerable Rain Falls in Belt, Chiefly Beneficial, But Market Rises.

Friday Afternoon, June 18 Judging from the way the market acted today is technical position much have worsed iffeed into shape week to be earth in we was considered amply occumed. The past tew fours brought rains to many socitions, which were sea rule beneficiar to prospects, with promise of some more, and with general reduction of temperatures, but precise worked moderately higger. About his was done simply showed his weevill menace. The readiness with which this was done simply showed how sensitive the market is and how dangerious it is to play the best side very strongly. At the close the list in New York was steady and a to 42 points to the good, while New Orleans left off 40 to 42 points higher. Final prices were not very far from the top.

The opening on this side was slightly to the bad, reflecting some private cable advices, reports of rains where needed and more or less selling from several directions. Its tober started at 34 dbc, touched 34 dbc and then begain to be supported, for more details of weather showed that some sections perpaps had more rains than needed. The map lines were such as to suggest the possibility of more rains, and this was supported by the official forecast for the western and central belts. Buying seemed to hinge on the possibility of renewed weevil activity more than anything else, with utter disregard for the fact that no doubt the showers had done material good to the crop. Detober worked gradually upward and touched as high as 34.92c a short while before closing. Trading was not active and those who were builts did not seem to be any too aggressive. Steadiness in the stock market and talk of further gold imports perhaps belped induce some Wall street covering, while slightly builtish weekly statistics also may have been a small factor. The movement into sight lost sharply compared with a year ago, while falling off in takings by spinners was moderate, which made visible American lose relatively. However, in other kinds than American the visible American lose relatively. Commission Houses Buying Corn in Early Trading Causing Moderate Upturn.

CHICAGO. June 18.—Strength developed in the corn market today after a hesitating start. Important commission houses were the chief buyers. The fact that crop reports were less favorable had a good deal to do with stimulating demand. Opening quotations which varied from 1½c decline to ½c advance, with July \$1.76½ to \$1.57½ and September, \$1.67½ to \$1.67½, were followed by a rise all around to well above yesterday's finish. The close was strong, 1½.67½ and September \$1.69½.61.69½.

Oats paralleled the action of corn. After opening 1½c off to ½c advance, including September at \$4½c to \$4½c; the market scored a moderate upturn all around.
